

2024 WEDDINGS A LA CARTE MENU

WEDDING FLOWERS BULK BUCKET OPTIONS

\$135 Custom Color Choice

\$100 Farmers Choice

\$125 Greenery Buckets

Our color choice buckets are approximately 50-75 stems of focal flowers, secondary blooms and filler flowers. Foliage by request. For Custom Color Buckets, please provide your desired colors. We will match these colors as close as possible, but please know that color interpretation is at our discretion! If you love flowers and want blooms that are fresh and gorgeous, this option is perfect for you!

The exact number of stems will depend on the size and value of the flowers. So during dahlia season, when flowers are large and valuable, expect closer to 50 stems. In mid-spring, when flowers have that slender "wildflower" look, expect closer to 70 stems.

Our Farmers Choice Buckets are a lower rate, and we choose the colors. They are \$100.

Our greenery buckets are a mix of foliage with 50-75 stems. We can discuss your intended use to determine varieties best suited for your needs (in-water or out of water, bouquets, etc.) They are \$125

Flower varieties and the exact number of stems are up to us. If you are making arrangements, budget for at least one bucket for every 5 Mason jar centerpieces. You can make two or three bridesmaid bouquets from a bucket. (Although the exact stem counts required will depend on your design preferences.)

In spring, expect anemones and ranunculus with lots of wonderful accent flowers such as butterfly ranunculus, snapdragons, sweet William, delphinium, bupleurum and many others.

In summer, expect lisianthus, dahlias, cosmos, zinnias, and lots of field grown color with many varieties blooming!

In autumn, dahlias take center stage, along with celosia, chrysanthemums, zinnias, cosmos and many others.

In winter, we source some flowers from beyond the farm using the same resources a traditional florist has access to, although we do have amaryllis and anemones from our farm starting in February!
